

AUDIT2MEASURE

Assistance for the implementation of energy efficiency actions in industrial companies

SCOPE

AUDIT2MEASURE partners offer technical assistance to define and implement energy efficiency actions in private industrial companies from Italy, Netherlands, Germany, Spain, Greece, and Czech Republic.

This assistance is free and is part of the European project AUDIT2MEASURE.

We help to overcome the barriers that companies find to implement this type of actions, improving economic results and energy management in their processes.

WHAT WE OFFER

- ✓ Technical assistance to analyze the feasibility of energy efficiency actions, prioritizing those that come from energy audits or similar studies
- ✓ Tracing and escorting in the process of implementing energy efficiency actions, including company managers and technicians
- ✓ Resolution of technical, economic or regulatory doubts on these actions
- ✓ Training in energy efficiency and sustainability
- ✓ Promotion of companies, disclosing their commitment to the environment and the reduction of CO2 emissions, through networking sessions

HOW THE COMPANY PARTICIPATES

- Signing the agreement of participation in the AUDIT2MEASURE project
- Providing information about their energy consumptions and from energy management of the company
- Participating in internal workshops, meetings and staff trainings
- Receiving results obtained in the study of their data and voluntarily implanting them
