LESSONS LEARNT AND INSIGHTS FOR THE FUNDING OF CLIMATE RESILIENCE IN NATIONAL AND REGIONAL ADAPTATION PLANS FROM THE EUROPEAN BUDGET

OBJECTIVES AND MAIN FINDINGS

Analysis if and how the National Recovery and Resilience Plans (NRRP) developed by European Member States include key measures dedicated to climate adaptation, in alignment with their existing National Adaptation Strategies and Plans (NAS/NAP)

Evaluate whether NRRP sufficiently allocate investments to climate adaptation to match their NAS/NAP

REGIONAL PROMISING PRACTICES

Comunidad Valenciana
- Circular Economy planned tenders
- Biodiversity and ecosystems

Región de Murcia
- Participating in adaptation related projects

Région Autoáoma da Madeira
- Promote/Forest 4.0
- Water efficiency and reinforcement plan

Adriatic Croatia
- Ekokarta Zagreb
- Practices linked to 16-PLAN project

Central Macedonia
- Participating in adaptation related projects

Out of 27 Member States, 15 drafted NRRP allocate Recovery and Resilience Facility (RRF) fundings to climate adaptation measures.

For many Member States, the investment in adaptation measures laid out in the NRRP is significantly less than the investment needs described in the national NAS/NAP, with exceptions.

Climate mitigation measures still constitute a significant share of the total NRRF funds allocated to the Green Transition Pillar, specifically in Denmark, Estonia, Germany, Ireland, Poland.

ANALYSE IF AND HOW THE NATIONAL RECOVERY AND RESILIENCE PLANS (NRRP) DEVELOPED BY EUROPEAN MEMBER STATES INCLUDE KEY MEASURES DEDICATED TO CLIMATE ADAPTATION, IN ALIGNMENT WITH THEIR EXISTING NATIONAL ADAPTATION STRATEGIES AND PLANS (NAS/NAP)

Main Findings

- For many Member States, the investment in adaptation measures laid out in the NRRP is significantly less than the investment needs described in the national NAS/NAP, with exceptions.
- Climate mitigation measures still constitute a significant share of the total NRRF funds allocated to the Green Transition Pillar, specifically in Denmark, Estonia, Germany, Ireland, Poland.
