Background and objectives

Almost all Member States make use of Alternative Measures to meet their energy savings obligation set in the EU Energy Efficiency Directive (former Article 7, now Article 8). Some use them in combination with an Energy Efficiency Obligation Scheme others rely solely on Alternative Measures. Member States' [cumulative energy savings over 2014-2020](#) and [new annual energy savings in 2021](#) show very diverse situations.

This workshop aims to support Member States by sharing experience among countries. The first part will provide examples of Alternative Measures in all end-use sectors. The second part will discuss more specifically how to target households at risk of energy poverty, or other priority groups, in the context of Article 8(3) EED.

Agenda

9.00 Registration

9.10	Welcome and introduction of the workshop	Peter Vedres, Head of Department of Sustainable Development (MEKH)
------	---	--

9.15	The Hungarian EEOS and merit order of energy savings options	Dr. Johanna Hohmann (MEKH) and Armin Böhm (HUMDA)
------	---	---

Part 1: A cross-cutting tour of Alternative Measures

9.40	Alternative Measures in Industry - The German Federal Support for Energy and Resource Efficiency in the Economy	Anne Kimmel (BAFA – Federal Office for Energy Efficiency)
------	--	---

10.00	Lithuania's Energy saving agreements	Mindaugas Mižutavičius (LEA)
-------	---	------------------------------

10.20	Netherlands' policy package for buildings	René Schellekens (RVO)
10.40	Overview of transport measures reported to the EED energy savings obligation	Samuel Thomas (RAP)
11.00	Latest updates in the ODYSSEE-MURE tools and scoreboard	Didier Bosseboeuf (ADEME)
11.15	<i>Coffee break</i>	

Part 2: targeting households at risk of energy poverty or other priority groups (Article 8(3) EED)

11.35	Cross-country findings from the ENSMOV Plus' examples	Laure Baudart (ATEE)
11.50	France's experience with the 'energy poverty' white certificates	Solenne Toum (ATEE)
12.10	Wallonia's complementary set of measures to tackle energy poverty	Jean-Sébastien Broc and Samuele Livraghi (IEECP)
12.30	Experience with Greece's energy efficiency measures also tackling energy poverty	Harris Andreosatos (CRES)
12.50	Slovenia's experience with targeting priority groups in financial incentives for energy efficiency in buildings	Matevž Pusnik (Jozef Stefan Institute)
13.00	Lunch	

Part 3: experience sharing on M&V practices (on-site only)

14.30	Informal session for public bodies involved in M&V systems, focused on how to manage M&V for various policy measures	
16.30	Wrap-up
