

Curious about just transitions? 5 key terms you need to know

Just Transition

Leaving no person and no region behind in the transition to a greener future

Helping communities in the transition to a renewable based energy system. Provide meaningful support to communities undergoing the phase-out of fossil fuels.

01

Social Inclusion

Ensuring each individual and groups can take part in society

Giving everyone a voice. Enhance opportunities and access to resources for the equal participation of all groups in society.

02

Green Economy

Low carbon + resource efficient + socially inclusive

Living, working and pursuing growth, while taking care of the environment and using the limited resources available as sustainably as possible.

03

Sustainable Development

Striving for peace and prosperity for people and the planet

A world where everyone has access to the resources and opportunities they need to thrive, while protecting the planet and preserving its natural systems.

04

Energy Poverty

The lack of access to modern energy services in the home.

No one should have to choose between eating, lighting, warming or cooling one's home. Ending energy poverty means providing people with energy efficient housing and clean energy.
