INDUSTRY AND TRADE

Outline

- Energy savings obligation
- New Green Savings programme
- Overcoming barriers
- EPBD and EED - synergies

Energy savings obligation I

- Period 2014-2020
 - Reliant on subsidy programmes – investment measures
 - New yearly savings 95 %, cumulative 71 %
- Period 2021-2030
 - Regulation 50 %
 - Investment measures 45 %
 - Volunteer agreements 3 %
 - Tax 2 %

Energy savings obligation II

- Buildings
 - For renovations – 8,9 billion EUR
 - Estimated new savings – 40 PJ
- Measures
 - Focus areas – heating and insulation
 - Technical assistance
 - Awareness raising

New Green Savings programme

- Ministry of Environment
- Continuously in effect since 2009
- Residential sector
 - Single family houses / apartment buildings
 - Allocation 3 billion EUR
 - Currently: 7 open calls
 - The range of applicants is expanding
 - Bonus systems – the more the better

New Green Savings programme

Overcoming barriers

Technical assistance

- Focus on the whole society, no one left behind
 - Energy poverty, vulnerable households
- Easily accessible
- Qualified professionals – filtering basic questions
- Understandable results – renovation passport

Awareness raising campaign

EPBD and EED - synergies

- Both heavily rely on buildings
- Push for technical assistance
- Article 8 and Annex V
 - Administrative burden – materiality and additionality
- Article 9 of the EPBD – MEPS
 - Nationally set rules
 - Discussions during negotiations due to EED savings obligation

Thank you for your attention
